W. E. TABER, T. P. A. Greenville.

ELECTRIC CITY SPARKLETS

Items of Interest and Personal Mention Caught Over the
Wireless on the Streets of Anderson

(From Sunday's Daily.)

Who Is To Be Presiding Judge?

Some discussion has been heard around Anderson within the last few days as to who will be the presiding judge at the next term of the court of General sessions for Anderson, which convenes on Monday, September 7th. Some of the attorneys were under the impression that Judge John S. Wilson would come to Anderson for this term, while others thought it was time for Judge Memminger to come. Judge Prince yesterday stated that neither of these gentlemen would come to Anderson for the approaching term as the roster of judges shows that Judge DeVore will come here. This settles the matter, since the roster is the only guide that the judges themselves have and therefore Judge DeVore will probably be in Anderson next week.

Has Hawkins A Wife Here?

According to the people around town Luther Hawkins, the young white man who was just convicted in Greenville county on a charge of bigamy, was sentenced to a term in the State penitentiary, once made his home in Anderson and some have said that he even now has a wife living in the city. Hawkins was charged with having five wives, all told, some of them in Greenville and others in Georgia. When he was arraigned for trial he entered a plea of guilty and was yesterday sentenced by the court.

Executive Commissioner Pleased With Anderson

Albert Blum, executive commissioner for the South Carolina Exposition committee, says that he likes Anderson as well as any town that he has seen since he came to this state. Mr. Blum has been in Columbia for some weeks and came to this city yesterday to confer with the local business men regarding Anderson's taking part in the coming exposition. He says that he likes Anderson and Anderson's people and he already feels assured that this city will do her part and do it well when the question of financing the state exhibit comes up for consideration.

War Caused More Smoking

Possibly Anderson people had never thought of it but men smoke a great many more cigars and cigarettes when they are excited, interested or are worried than they do when they are perfectly normal. As an example of this may be cited the fact that one of the principal cigar stores of the country has just given out a statement on their last month's business by which it will be seen that they sold more cigars than ever before in the history of the company. Officials of the company say that this was undoubtedly due to the fact that the foreign war has broken out and that the average newspaper reader devour a whole cigar while he is reading the accounts in the newspapers of the battles fought. The theory seems plausible.

Drainage Board To Hold Meeting

The final meeting of the Board of Viewers appointed to investigate the possibility of draining the Rocky River Swamp lands will be held in the office of James N. Pearson, clerk of court, on Tuesday, September 8, at which time the proposition will either be accepted or will be refused by the people owning the property along Rocky River. There is little possibility of the land owners refusing to take part in the scheme and indications are that after this meeting the work will at once be begun. This means that Anderson county will be richer by thousands of dollars in agricultural lands than she ever was before.

Back From Their Honey Moon Trip

Mr. and Mrs. R. D. Hollyrod have returned to Anderson. They have gone to housekeeping in West End. Mr. Hollyrod is the efficient bookkeeper at the Farmers and Merchants bank. His bride was a popular young lady of Greenville and they both have many friends in Anderson. They are receiving a warm welcome.

Baseball Game Was Rained Out

The baseball game scheduled for yesterday afternoon between a picked team of college men from the city of Anderson and a team of electricians at work in the city, was postponed on account of wet grounds. The rain which fell about 3 o'clock made the diamond so muddy that it was impossible to play until a later date. This game is being awaited with much interest by the local fans.

To Harvest Crops

London, Aug. 29.—12:49 p. m.—According to the Oxford correspondent of the Reuters Telegram Company, Minister, Contracts, vice rector of the University in Louvain, was one of the prominent residents shot by the Germans there. All able-bodied men of Louvain, according to the correspondent, have been sent by train to Germany to aid in harvesting the crops.

Places Blame on Others

London, Aug. 30.—The British official bureau repeats its statement that England has laid no mines in the North sea and adds: "England, therefore, cannot be charged with any injury up to the present caused by mine laying."

Williamston To Have A Concert

So well pleased were they with the band concert which was held at Williamston last Sunday, the officials of the Piedmont & Northern lines have announced that they will run another excursion to this place this afternoon. They plan to allow the same low rate trip rate and the concert will last from 3 p. m. until 6 p. m. Last Sunday afternoon about 500 Anderson people went to Williamston and they said that the trip was very enjoyable. In all probability an even larger number will make the trip today.

Entomologist To See Caterpillars

It was understood in Anderson yesterday that an entomologist had been detailed to come to Anderson from Clemson college and investigate the cotton worm which is playing havoc with some of the crops in this county. It is understood that the worm resembles the caterpillar and it is known that this worm is in the state, and the Anderson farmers are inclined to believe that it is the caterpillar doing all the damage here. The expert from Clemson will probably be able to suggest some remedy for the trouble here.

Fine Horse May Be Manufactured Here

The Anderson chamber of commerce has been conducting negotiations for the past several weeks with two hosiery mills in an effort to induce one of them to come to this city. One of the mills is located in New York state while the other is in Linville, N. C. Owing to the fact that the manufacturers have not yet been able to reach any decision in the matter, the secretary of the Anderson chamber of commerce says that no definite assurances in the matter can be given out, but he believes that one of the industries may be induced to move here.

Mr. Mattison To Enter Yale Soon

Marion Mattison, a son of M. M. Mattison and a graduate of Davidson college, left yesterday for New York, where he will spend a week and then he will take up a course of preparatory field work which he will do before he enters Yale in October. Mr. Mattison will enter the Junior class of the famous institution and will study civil engineering. He has a talent for this work and the future for him should be very bright.

Automobile Has A Bad Mishap

A public service car running along Main street last night, broke an axle when just in front of The Intelligencer office, throwing one wheel entirely up on the sidewalk. Fortunately the car was going at a slow rate when the accident occurred and therefore none of the occupants met with injury.

Singing School Has Been Closed

Prof. John T. Milford has just closed a very successful singing school at Welcome and the people of that section say that they are very much pleased with the good work done by Prof. Milford in their community. Prof. Milford also closed a school at Hopewell about two weeks ago and he gave as much satisfaction there as at Welcome.

Telephone For Farmers' Homes

A campaign is shortly to be inaugurated in Anderson to place a telephone in the home of every white farmer in the county, according to a letter which was received in this city from Morgan B. Spier, general manager of the Southern Bell Telephone Company. This matter was agitated by people of the city simply because it would surely mean money to the farmer and the merchants of the city as well. The farmers look on the plan with favor and in all probability many of them will agree to install telephones when the special inducements planned by the company are offered them.

Col. Maxwell Seriously Ill

Word has reached Anderson from Salisbury, N. C., that Col. J. D. Maxwell is very ill and that his condition is regarded as serious. Col. Maxwell is the father of Jeff Maxwell, and Fred Maxwell of this city, and he has a number of friends here. Some time ago he went to the mountains of North Carolina in the hope that a change of climate might prove to be beneficial but his condition grew worse there and he is now in a hospital in Salisbury. People in Anderson hope that he may soon be improved.

Swedes May Mobilize

Bar Harbor, Me., Aug. 29.—W. A. F. Ekengren, Swedish minister to the United States, said tonight he had heard officially of an order to mobilize the Swedish army, reported from New York. He said he knew of no grave political movement in Sweden, such as was reported from New York, and expressed the opinion that if the army had been ordered to mobilize it was to preserve neutrality. Minister Ekengren said that he had no recent communication with his government.

Preparing for Siege

Paris, Aug. 30.—It is officially announced that the military governor has ordered all residents of the zone to withdraw and destroy their houses within four days from today, August 30.

NATIONAL SECRETARY WILL VISIT ANDERSON

T. P. A. BOOSTER WILL COME TO THIS CITY

INSPECTION TRIP

Plans a Visit of One Week To South Carolina and Stops Here For First Time

(From Saturday's Daily)

It would be a difficult matter to estimate in dollars and cents the value of the visit of T. S. Logan, National Secretary of the Travelers Protective Association to this city. However, it has been definitely announced that Mr. Logan will come to Anderson for a visit and it is believed that some date in October will be chosen.

Several weeks ago Feaster V. Tribble, secretary of Post D of this city wrote to the National Association and asked that they detail Mr. Logan for a visit to this city. At that time Mr. Tribble hardly hoped that it would be possible for the secretary to get away from his duties, but he presented Anderson's claims in such a manner that he yesterday received a letter from the national headquarters in which the T. P. A. stated that Mr. Logan would be sent to this city. Mr. Logan has written to Mr. Tribble that he will be very glad indeed to come to Anderson, and says: "Owing to the great amount of work in the national office at this time, it will hardly be possible for the secretary to visit your division before October, but if that month will suit it can be arranged. The writer can leave St. Louis on Sunday, October 11 and arrive in your city about October 13."

Following receipt of Mr. Logan's letter Secretary Tribble of the Anderson post wrote him to the effect that Anderson will take delight in arranging for his visit during any part of October and urges that some date during that month be chosen.

It is probable that Mr. Logan will be invited to visit a number of other points in South Carolina while he is in this state but members of the Anderson post have already started on their plans for giving him a more enthusiastic reception than any other city in the state can hope to duplicate.

DON'T WANT WORK.

The So-Called L. W. W. Members Are Avoiding Work.

(By Associated Press.)

San Francisco, Aug. 29.—A large per cent of the state's unemployed are not looking for labor, and the strength of the Industrial Workers of the World among California workmen has been greatly over-estimated, according to testimony given today before the federal industrial relations committee. Fifty per cent of the men who applied to the local associated charities for aid here last winter did not want work, said Harry R. Bogart, secretary of the organization. John P. McLoughlin, state labor commissioner, said he thought the L. W. W. were doing a good work in awakening employees to the fact that it was to their distinct advantage to deal with the American Federation of Labor.

"I think there are more industrial workers of the world among students and professors than there are among workers," Paul Scharenberg, secretary and treasurer of the State Federation of Labor, said. "Give a rabid L. W. W. worker a job and he becomes a conservative."

A VICE FOR FARMERS.

McKeown Shins Alfalfa Interest in Chester.

Chester, Aug. 29.—A splendid crowd of farmers and business men at the court house yesterday afternoon heard A. A. McKeown, the Rock Hill farm agent, discuss alfalfa. He made a capital address. He said that the red clay soil of Chester county was well adapted to growing alfalfa, as well as any section in the commonwealth. He said that he had investigated this county's soil and had found it had a fine red clay subsoil. He likewise said that alfalfa could be grown well on sandy soil. The subsoil, he said, was the most important part of the planting. The alfalfa seed must be planted deep, as the plant is a deep rooted one and goes down sometimes to a depth of 40 feet. He suggested to the planters that in his estimation from September 1 to October 15 was the best time of the year to plant alfalfa. He urged the farmers to use about 30 pounds of seed to the acre and to cut it while it is in bloom.

Following this timely address the Chester County Alfalfa association was organized, with the following officers: W. W. Miller, president; John R. Alexander, vice president; and S. D. Cross, secretary and treasurer. R. L. Cunningham was mighty happy when his work of educating the farmers up to the needs of planting alfalfa was culminated in an organization to push the planting of it.

Fort Mills' First Sale.

George Morrow, a colored tenant on the plantation of Mrs. J. W. Davidson in Pleasant Valley community, on Wednesday sold the first bale of 1914 cotton on the local market. This was said to be the earliest date on which new cotton has been sold in Fort Mill.—Fort Mill Times.

UNCOMMON ITEMS.

Queen Mary finally saw a demonstration of the Tango and at once she liked it.

Fat man in New York who tried to cut his throat was not able to get through the rolls of the fat on his neck.

Philip Neuman, a New York postal clerk, when arrested, said that he only pilfered letters when he smoked cigarettes.

Wood alcohol again. Two died and one was blinded of a party of five who drank wine purchased from an east side grocery in New York city.

Dr. Louis Brocq, in the Paris Medical Bulletin, says that women are deteriorating as a result of the present day "emancipation." Too much brain work.

New York police, with characteristic modesty, arrested a number of men fully dressed in bathing suits because they were a block away from the beach, on their way to their hotels.

Leprosy is increasing in the United States, according to Dr. W. C. Rucker, assistant surgeon general of the United States Public Health Service. He advocates a federal leprosarium for their care.

Infant incubators have been more of a failure than a success, according to Dr. E. Chapin, of New York, who says that out of 150 cases in his personal experience he has had not one satisfactory result.

Dr. Duncan McDougall, Haverhill, Mass., says he has weighed a human soul, and that it weighs three-quarters of an ounce. He ought to try poets and new-thought ladies who specialize in soul-culture.

Pellagra in the South is spreading. Now said to be between 50,000 and 75,000 cases. Of more than 8,000 cases studied by the Robert M. Thompson Pellagra Commission, 28 per cent have proven fatal.

Dr. Michael F. Barrett, Philadelphia, believes he has found the germ causing pyorrhea, an organism similar to a germ associated with dysentery. Says that Emiline, a component part of Ipecac, is a cure.

Wa-be-ne-pew-wee, or words to that effect, sometimes called John Smith, once a chief of the Chippewa Indians, is said to be 128 years old. Government records seem to vouch for this existence as a boy 116 years ago.

Jacobs Sturall, of Sergeant, Ky., 15 years old, is 5 feet, 11 inches tall, weighs 409 pounds, and is still growing. Harry Lewis, Philadelphia, 13 years old, started to gain flesh recently, now weighs 190 pounds, and is growing larger every day.

Cigarette smoking among women and girls at St. Louis has doubled in half a year, according to the findings of the St. Louis grand jury, which is inquiring into the sale of cigarettes to minors. Popular among wealthy and society women.

Dr. Oscar H. Allen, addressing the American Arthopedic Association of Philadelphia, says that "it is a hygienic crime to send children to school before the age of ten years. Under that age the fixed portion of the school desk often causes serious spinal curvature."

Two-year-old Johanna Wiggers, 231 East 28th street, New York city, was found to be the prettiest baby at the Big Baby Week competition, getting a rating of 9.8 points on her score card. She is twenty-eight months old, 35.12 inches high, and weighs 33 pounds, 14 ounces.

Prof. J. M. Lohr, of the Academy of Medicine, Paris, said that men fatigue increases blood pressure more than physical fatigue, that the mental worker is really more fatigued by his day's work, and that in his case lassitude or failure to work hard can be tested by the state of his blood pressure.

Considerable interest aroused in New York over the taking effect of the Boylan anti-drug law on July 1st. This law prohibits the sale of habit-forming drugs except under rigid conditions, requiring physicians' prescriptions, to be verified, careful record of sales, names and addresses of purchaser and physician, and other similar restrictions.

Clubwomen assembled at the Biennial Convention of the General Federation of Women's Clubs in Chicago, protested against modern fashions, especially against skirts that "cover but do not conceal," as tending to break up homes, and as having been designed for the demi-monde of Paris. It was noticed, however, that the beautiful young women in the convention wore the fashionable styles. Meanwhile the president of the National Ladies' Tailor Association, and many women physicians defend and highly praise the prevailing modes.

Two scientific men have recently claimed to have discovered the secret of the control of sex in part at least. Dr. Oscar Riddle, of the experimental evolution station of the Carnegie Institute has experimented with doves, pigeons and frogs, believing that the sex could be influenced. Dr. Israel Bram, of the Medico-Chirurgical Hospital at Philadelphia, has two theories, one that an excess of nourishment is conducive to the birth of female children, and the other that the supra-natural glands have much to do with it, so that when the prospective mother is stimulated by the administration of Hecuba with the extract of supra-natural glands of sheep, males are likely to be produced.

WHY THE "HELLO GIRLS" DIE BEFORE THEIR TIME.

Answers in Giving "Information" to Subscribers to the Telephone.

Southern Telephone News. Here are some questions asked the Birmingham, Ala., information clerks on a busy day:

Subscriber asked for party; said she didn't know his initials or address. "You'll remember he's the one who lost his wife a short time ago."

Subscriber called. Complaint and wanted to know if that was the "kicking Department."

A little boy wanted the number of the shoe shop that had a monkey on the wagon.

"Information, will you please give the number of a colored man in Enley by the name of John?"

"Information, please give me Florence's telephone."

"Information, please give me Lula Jones' number. She used to be Lula Jones, but she run away and married and I don't exactly know her name now."

A negro woman said: "Please tell Rubie to come out to my house about seven-thirty. You know he just come out of the 'Big Rock' this afternoon."

"Please give me Mrs. Williams' number. She is the widow woman who lives around the corner."

"Please give me the number of a lady who has a store on the corner of Avenue I and Twenty-fourth street. Her first name is Miss Fannie, but I don't know what the rest of it is."

"Information, I want Mr. Keyser. He lives at the grave yard?"

"Please give me the number of 'Dago Jake's' fruit stand in Pratt City."

"Please give me the number of that colored woman that lives at Parker Springs."

A man called Complaint and said: "Please send the undertaker out to M—. It died this afternoon."

"Please give the temperature of the weather."

"I don't know his initials, but his name is William T."

"I'm calling Irene you know she lives next door to you all."

"Hello, could you tell me if Bea—43—dash one is a railroad office?" Told subscriber he didn't want dash one, but ring one, and he said: "Well, this is the first time in my life that I ever heard of a dash meaning ring."

Subscriber asked for party named "George Forgots."

"Information, I don't want you I told the operator I wanted Mrs. John Wade. Her number is torn out of my book, but she certainly ought to have sense enough to ring her after I told her who I wanted."

"Information, can you tell me how the fight came out today between Jack Johnson and Moran?"

"Give me Betsy on Sixth avenue. I don't know the other part of her name."

"Information, please give me the number of the dead 22—dash—dash wife who lives on Sixth avenue."

"Information, could you tell me if Mr. E. E. Spencer is a member of the First Presbyterian church?"

"Information, my trunk is at the station, and I want to know how to get it."

"Information, please give Garbage Can Information. I want to find out about my garbage can."

"What is the date? I haven't a calendar where I am."

"Information, give me the number of the lady who lives on Seventeenth street. Her name is Alice something."

"Information, give me the key-turner at the City Hall. I want to see if my husband is in 'it'."

"Please give me Miss Addie's number on Seventeenth avenue. I don't know the rest of her name."

"I want that book's number over on the South Side."

"Information, give me Josephine's number on Avenue G."

"Information, give me Mr. Henry's number. I don't know his name, but he's got a son named Harry."

Told a party a number was listed on page 98 and he said: "Ninety days, yes'm."

"Please give me the number of that house on the South Bessemer car line. I don't know the name."

Fyle Men Combine

New York, Aug. 29.—Independent motion picture manufacturers, actors, men and exhibitors from all parts of the country, representing millions of capital, organized here today, the National Independent Motion Picture Board of Trade. William Fox was elected President. The new organization proposes to fight the defendant's named in the government's moving picture trust and to watch anti-trust legislation as it applies to the motion picture industry.
